

Figure 1: A plot showing the evolution of the system over time (0 to 100) for various parameters. The y-axis represents the value of the parameter, ranging from 0 to 100. The x-axis represents time (0 to 100). The plot displays several time series, including $\alpha(t)$ (blue), $\beta(t)$ (orange), $\gamma(t)$ (green), $\delta(t)$ (red), $\epsilon(t)$ (purple), and $\zeta(t)$ (pink).
